

COMPANY FACTS

A leading national provider of prenatal, neonatal and pediatric services.

Company Mission

Take great care of the patient, every day and in every way.™

Company Overview

Pediatrix® Medical Group is a leading provider of specialized health care for women, babies and children in the United States. Since 1979, Pediatrix-affiliated clinicians have been dedicated to delivering compassionate and excellent care across various settings, including hospitals and offices. Their expertise spans obstetrics and gynecology, maternal-fetal medicine and neonatology, complemented by more than 20 pediatric subspecialties and recently expanded primary and urgent care clinics. Pediatrix emphasizes high-quality, evidence-based care and actively invests in research, education and safety initiatives to continually improve patient outcomes.

What We Do

As a national physician-led medical group, our skilled clinicians collaborate to deliver high-quality, evidence-based care across the entire care continuum. Through specialty-focused education, continuous quality improvement and safety initiatives, we support clinicians and hospitals in achieving better patient outcomes while reducing costs. Together with our health care partners, we:

- Develop customized solutions that optimize performance
- Improve patient care and experience
- Leverage clinical tools, quality initiatives, training and data to enhance care quality and performance
