**Company Overview**

Pediatrix® Medical Group (Pediatrix) is one of the nation’s leading providers of highly specialized health care for women, babies and children. Since 1979, Pediatrix-affiliated clinicians have been committed to providing coordinated, compassionate and clinically excellent services across the continuum of care, both in hospital settings and office-based practices. Specialties including obstetrics, maternal-fetal medicine and neonatology are complemented by more than 20 pediatric subspecialties and a newly expanded area of primary and urgent care clinics. The group’s high-quality, evidence-based care is bolstered by investments in research, education, quality-improvement and safety initiatives.

**Every Day at Pediatrix**

**500+** Hospitalized pediatric patients

**1,600+** High-risk pregnant women

**5,300+** Babies in the NICU

**450+** Pediatric cardiology patients

**400+** Attended deliveries

**2,600+** Hearing screens

**2,400+** Newborns in the nursery

**Mission**

*Take great care of the patient, every day and in every way.™*

**What We Do**

Our physician-led health care organization partners with hospitals, health systems and health care facilities to offer clinical services spanning the women’s, babies’ and children’s continuum of care. As a national medical group, our skilled clinicians collaborate across the care continuum to deliver high-quality and evidence-based care. Our specialty-driven education and continuous quality-improvement and safety initiatives support clinicians and hospitals in achieving better patient outcomes while reducing care costs.

Together with our health care partners and providers, we develop customized solutions that benefit hospitals, patients and payors through:

- Optimizing clinical, financial and operational performance
- Improving patient care and the total patient experience
- Utilizing clinical tools, quality initiatives, training and robust data and research to optimize care quality and performance

# Company Fact Sheet

## We Stand Apart As

- One of the nation's largest providers of prenatal, neonatal and pediatric services
- An industry leader with nearly 45 years of experience
- Focused on improving access to care by offering a comprehensive suite of telemedicine solutions
